Subject: Please revise the Portland Harbor Superfund Cleanup Plan

Dear Administrator Gina McCarthy,

As a doctoral level program university professor of scientific research methods, I have reviewed the reported findings and recommendations of the Portland Harbor Superfund Cleanup Plan.

It is seriously flawed as a scientific study, and is not valid or reliable as a basis for projecting likely strategies, budgets and timetables on which public policy makers should decide anything!

Sincerely,

(b) (6)  
Portland, Oregon 97217

Sincerely,

(b) (6)
